

# // recycled materials

Reuse of resources is a key foundation of Solo's comprehensive environmental management. For our recycled content products, we use paper and plastic material which has completed its life cycle as a consumer item and would otherwise end up in a landfill. We are able to utilize these post-consumer materials and still meet Solo's and your high standards of product quality, reliability and dependability.

RPET CUPS

PCF HOT CUPS

## RPET CUPS

- PET cup made with at least 20% post-consumer recycled material
- FDA-compliant material

## PCF HOT CUPS

- First-ever FDA-compliant PCF paper hot cup
- Made with at least 10% post-consumer recycled fiber and at least 90% renewable resources

BRINGING ALTERNATIVE RESOURCES FOR THE ENVIRONMENT

BY **SOLO**<sup>®</sup>

for today. for tomorrow.  
**for good.**<sup>™</sup>

good for business.  
good for everyone.

We're Bringing Alternative Resources for the Environment. Introducing Bare™ by Solo — the foodservice industry's first single-use packaging brand with a broad environmental platform.

Thoroughly tested to ensure top performance and made from renewable and/or recycled materials, Bare™ is the brand you can count on to communicate to your patrons that you care about the environment.

From compostable to post-consumer recycled material to renewable content, Solo now offers a large breadth of eco-forward™, disposable cup solutions to meet your needs.

## // compostable

For some food packaging applications, a compostable product is the most environmentally responsible option. Our PLA hot cup, paper cone and water cups are fully compostable in a commercial compost facility, degrading through biological decomposition.

### PAPER CONE & WATER CUPS

- Dry wax coated paper
- Made with at least 80% renewable resources
- Compostable in a commercial compost facility\*

### PLA HOT CUPS

- Paper cup lined in PLA (a plant-based resin)
- Made with 100% renewable resources
- Compostable in a commercial compost facility\*

\*Commercial composting may not be available in your community. For more information, contact your local municipality.
