

# ANCHOR PREMIUM ROASTER

## BETTER MERCHANDISING & TABLE PRESENTATION

*Minimal ribbing in lid, provides for a better view and better merchandising of your prepared food item. Classic black casserole design provides your customer with an elegant table presentation, a serving platter that requires no re-plating.*

## LEAK-RESISTANT & DURABLE

*Lids are easily secured and will not crack or warp like those made of polystyrene. Leak resistant lid fit eliminates the need to over wrap with film or tape.*

## HEAT TOLERANT & MICROWAVEABLE

*Anchor Premium Roaster includes a dome lid and base (combo pack) made with microwavable polypropylene. Heat tolerant under heat lamps and in warming units up to 230°F.*

## SAFER HANDLING

*Textured handles on both ends provide a much easier and safer method for operator handling in-store, and consumer transport from store to the kitchen table.*

## STACKABLE

*Unique stacking feature keeps container secure without blocking the double vents in the lid, designed to allow steam to escape more freely to reduce condensation buildup.*

## REUSE, RECYCLE

*Made of durable polypropylene, the roaster is microwave-safe, dish-washer safe. Reuse again and again and then recycle.*
