

Biodegradable Tug & Tote, The Green Way to Bag

- The Environmentally responsible produce bag
- Bags are safe for the environment
- This product meets the ASTM standard definition for degradable plastic and biodegradable plastic *
- Boxes are made from recycled fiber
- Boxes and bags can be recycled after use

Tug & Tote, The Clean Way to Bag® – All the same features and benefits of our original Tug & Tote products

- One-at-a-time dispensing, no wasted bags
- No perforations to locate and tear apart
- Bags are protected in the box until they are dispensed
- The bottom seal of the bag comes out first, preventing the introduction of dirt into the bag
- Customers touch only their own bag
- Rack system integrates into the produce department for a clean, modern look

Corn & Yams Bags

Tired of trying to bag a dozen ears of corn in a standard produce bag? Extra-heavy gauge 15" x 28" bags are perfect for whole ears of corn, yams, and other heavier produce items that might puncture a weaker bag. Costs less than paper bags and reduces shrink at the front end by allowing cashiers to see what is inside the bag.

CORN & YAMS BAG SPECIFICATIONS

ITEM CODE	SIZE	COLOR	MIC	MATERIAL	BAGS/ ROLL	PRINT COLOR	ROLLS/ MASTER
TNT CYBP	15X28	CLEAR	9	HIGH DENSITY	425	GREEN*	4

*Child suffocation warning printed on bag
