

# Green Collection: Compartmented Pulp Containers

**Sustainable Packaging that Performs**

**COMPOSTABLE**  
IN INDUSTRIAL FACILITIES  
Check locally, as these do not exist in many communities.  
CERT # 10528471

# Sustainable Sections

Today's consumers seek a compartmented balanced lunch that is boxed up ready to travel to an outdoor event or around a corporate campus. Packaging that caters to large groups on the go should easily serve individuals from the container, prevent messes, and allow reheating and reuse. If operators can think big, as in orders of 100+ guests, they can score big by adding a drop off box-lunch catering program for both hot and cold menu items.

- Divided 2 or 3 compartmented containers perfect for boxed lunches and small meals
- Temperature tested for hot and cold food applications
- Premium leak-resistant lid prevents spillage during transit
- Best-in-class natural-look highlights the importance of food quality

Category	Item Number	Item Description	Dimensions (in inches)	Material	Case Pack
<b>Compostable Pulp Containers</b>	48090030D300	Pulp 3 Compartment 9x9 Base	8.9 x 8.9 x 1.77	PULP	300
