

Introducing the **NEW E-Tray** from

dopaco®

the most environmentally friendly tray available

- 100% Recycled Paperboard
- Contains minimum 60% Post Consumer Fiber
- Printed with Soy Ink
- White interior clay coated for grease and water resistance
- Same function and sizes as traditional food trays
- Biodegradable & Compostable where recycling facilities are available

- More environmentally friendly during the printing process
- Removed more easily than regular ink during the de-inking process of recycling
