

# Zenith NaturalZ

For over 60 years, Zenith Specialty Bag Company has produced the highest quality paper bags and sheets in our industry. We are similarly committed to providing our customers with the most ecologically responsible alternatives to paper packaging. Zenith Specialty Bag Co. NaturalZ is a collection of these eco-friendly alternatives.

Zenith NaturalZ are products made from a variety of recycled, compostable and biodegradable papers and films, and printed with water based inks. These materials represent the latest in worldwide choices of source-reduction packaging. Naturally, all Zenith NaturalZ products are made from FDA-approved papers that are unbleached and not dyed brown.

We have also decreased the pack-sizes of many of our items, and added a convenient dispenser-box for all of our 12 X 12 sheets. This maximizes usage efficiency and inventory management for our customers.

In addition to NaturalZ stock items, Zenith NaturalZ can be custom-printed and custom-sized to accommodate virtually unlimited personalized options.

See back page for contact information.

### Why Zenith NaturalZ?

- Promote Green packaging
- Show your support for local recycling and composting programs
- Help sustain the environment
- Generate less waste while creating convenient options for customers
- Show your customers you've made the ecologically-responsible choice

Ask for Zenith NaturalZ... Naturally!

In addition to our eco-friendly NaturalZ line, all of our corrugated cartons have a percentage of recycled content ranging from 21% to 100%.

## Glossary of Terms:

**Polylactic acid (PLA)** is a corn-based polymer and is compostable. (Bread bags, coffee/window bags, bio-view sandwich bags) This environmentally friendly renewable resource is efficient to manufacture.

Our natural kraft Paper (bread bags and coffee bags) is 40% recycled (25% post-consumer).

Grease resistant natural kraft paper (Bio-View sandwich bags, portion bags, sheets) is unbleached, 100% compostable, and recyclable material.
