

Clorox[®] Total 360[®] System

Help Stop the Spread of Cold & Flu Viruses and Norovirus Outbreaks

Get Superior Coverage with Trusted Solutions...For Healthier Facilities

Cold and flu viruses can quickly spread on surfaces. Manual cleaning methods and traditional disinfecting tools aren't designed to effectively reach all desired areas, leaving staff and visitors at risk. Now there's a revolutionary new way to get the job done right.

The Clorox[®] Total 360[®] System pairs an electrostatic sprayer, with a portfolio of Clorox disinfectants and sanitizers, to ensure all surfaces — even those hard-to-reach, difficult-to-clean areas — are properly treated. The superior surface coverage helps keep your facility healthier, while also saving time and money.

Clorox[®] Total 360[®] System...

TAKES LESS TIME

Up to **75% faster***

COVERS MORE

Treat up to **18,000 sq ft/per hour**

* Versus trigger sprayer. † Rhinovirus ** On hard, nonporous surfaces. Sanitization claims valid for all vegetative, non-spore-forming bacteria § Reg. No. 156351

Clorox® Total 360® System Delivers Superior Results

The Clorox® Total 360® Electrostatic Sprayer, with the patented PowerWrap™ nozzle, is an efficient, reliable and powerful method to ensure all surfaces — front, back and sides — can be properly disinfected and sanitized.

The Clorox® Total 360® System Advantages...

Patented PowerWrap™ Nozzle

The advanced nozzle design provides highly reliable atomization and particle size.

Delivers uniform wraparound coverage on all sides of target.

Powerful Air Compressor

The dynamic air compressor enables fast, efficient delivery of charged particles to targeted surfaces.

Cover more intended surfaces in less time.

Reliable Delivery Method

The corded system ensures safe grounding and consistent electrostatic output.

No variance in performance due to operator handling or battery life.

Exceptional Wraparound Coverage vs. Other Sprayers

Clorox® Total 360® Electrostatic Sprayer delivers more uniform, wraparound coverage to the targeted surfaces than current sprayers on the market today.* Superior surface coverage helps provide better protection from the spread of germs.

*Results were determined in a single spray study conducted on metal trash cans (7.5 inches in diameter). Testing protocol established by using average of manufacturer suggested spray distances. Cordless electrostatic sprayer disinfection nozzle setting used.
