

Ice Cold Stock Cups

Enhance Your Beverage Experience

Berry's Ice Cold drink cup family offers a simple, stock solution for operators and a sustainability story relevant to today's consumers. These widely-recyclable cups are printed with fresh graphics that may evoke feelings of happiness and adventure as consumers enjoy their cold drinks.

Sustainable Solutions

Provided by Polypropylene

- Polypropylene (PP) resin has lower greenhouse gas emissions (measured in CO₂ equivalents) per pound than polyethylene terephthalate (PET) or polystyrene (PS) resins.¹
- PP cups often weigh less than the same size cups made from PET or rigid PS, further decreasing their environmental impact.
- Over 60% of U.S. households have access to recycle polypropylene cups.²
