Tamper Evident Containers

Introducing our new line of Tamper Evident Containers designed specifically for Foodservice Carryout

BUILD Consumer Confidence

Add an extra layer of confidence to your customers knowing that their food was never touched after being placed in the container. Tamper Evident Containers come with the tamper evident seal intact so the customer has assurance that their order has been untouched.

PREVENT Tampering & Theft

Tamper Evident Containers prevent your products from being opened or tampered with before purchase, which in turn lowers the amount of wasted food product and lost revenue. This is especially beneficial in food-service where to-go meals or food delivery are essential.

PROMOTE Food Safety

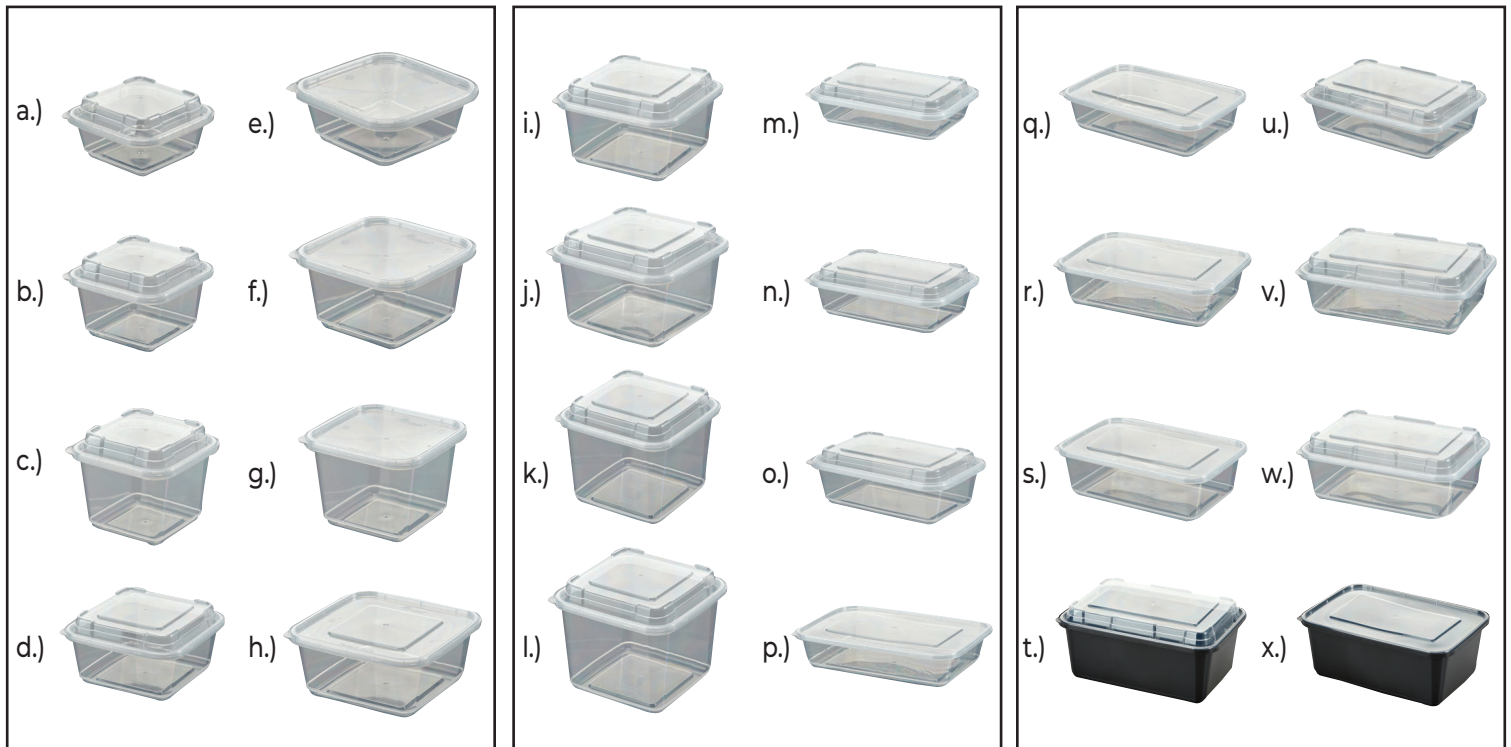

Help to promote food safety by preventing airborne contaminants from reaching your prepared foods. The airtight seals help to prolong the life of the item and prevents it from going bad. Provide security and protection to both your food and your customers health.

BLACK BASES AVAILABLE UPON REQUEST. CONTACT YOUR REP TODAY!

All containers can be combined with high dome or flat lids
