Brewery Cleaning Program

Whether you're a Bavarian beer law purist or you love your additives, the last thing you want in your beer is wild yeast or bacteria that can create off-flavors or spoilage. Properly washing and sanitizing your tanks is key to the success of your brewery.

Just like you take pride in your beer, we take pride in producing the finest cleaning products to make sure your equipment stays clean and sanitary after every batch. Protect your brewery's hard-earned reputation by cleaning with Victoria Bay's Brewery Cleaning Program.

Victoria Bay
Environmentally Responsible Products for your Everyday Needs

Victoria Bay's Greensafe chemicals have been developed to reflect our commitment to protecting the environment. Our products have been manufactured with the latest technology and research to help reduce waste and lower VOCs while maintaining chemical effectiveness. By identifying our products as environmentally responsible we help our consumers make educated purchasing decisions.

Victoria Bay's commitment to reducing waste starts in the chemical manufacturing process. We have evaluated our production methods and implemented strategies to shrink our ecological impact. Whether indoors or outdoors, all VOCs have a potential impact on air quality. With our environmentally responsible products, we keep VOCs as low as possible while still providing good performance. The health of our consumers is very important to us. Victoria Bay's Greensafe chemicals are an excellent addition to your green cleaning program.

Look for the following certifications on our Greensafe products. EcoLogo™ certified products are marked with a green **UL** and the associated certification number, while Safer Choice certified products carry a blue **SC** indicator.

EcoLogo™ is North America's oldest environmental standard and certification organization (and the second oldest in the world). By setting standards and certifying products in more than 120 categories, EcoLogo™ helps you identify environmentally responsible ("green") goods and services. www.ecologo.org

EPA/Safer Choice recognition does not constitute endorsement of this product. The Safer Choice label signifies that the product's formula, as Midlab, Inc. has represented it to the EPA, contains ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Midlab, Inc., its integrity and good faith, for information on the product's composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the product formula, nor evaluated any of Midlab, Inc. non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the product's human health and environmental characteristics, as specified in the Safer Choice Standard and based on currently available information and scientific understanding. *Formerly DfE (Design for Environment)*
