

ANCHOR PREMIUM ROASTER

BETTER MERCHANDISING & TABLE PRESENTATION

Minimal ribbing in lid, provides for a better view and better merchandising of your prepared food item. Classic black casserole design provides your customer with an elegant table presentation, a serving platter that requires no re-plating.

LEAK-RESISTANT & DURABLE

Lids are easily secured and will not crack or warp like those made of polystyrene. Leak resistant lid fit eliminates the need to over wrap with film or tape.

HEAT TOLERANT & MICROWAVEABLE

Anchor Premium Roaster includes a dome lid and base (combo pack) made with microwavable polypropylene. Heat tolerant under heat lamps and in warming units up to 230°F.

SAFER HANDLING

Textured handles on both ends provide a much easier and safer method for operator handling in-store, and consumer transport from store to the kitchen table.

STACKABLE

Unique stacking feature keeps container secure without blocking the double vents in the lid, designed to allow steam to escape more freely to reduce condensation buildup.

REUSE, RECYCLE

Made of durable polypropylene, the roaster is microwave-safe, dish-washer safe. Reuse again and again and then recycle.
