**Product Information:** For any information, please feel free to call us to discuss your questions or visit our web site at [www.lejo.com](http://www.lejo.com).

## The Effects of Decorative Table Lighting

Dine-Aglow Decorative Table Lighting is the most economical and convenient form of table illumination throughout the global food service industry. Dine-Aglow is the only Liquid Wax System to offer the level of safety, quality, function, and convenience.

We know there are many options regarding table illumination. Nothing provides the long term positive effects as Dine-Aglow Decorative Table Lighting. Studies indicate a table lamp with a live flame increases comfort and enhance the overall dining experience for your patrons. A Dine-Aglow lamp program ensures safety, quality and the most economical liquid wax product on the market. Dine-Aglow Decorative Table Lighting is a silent asset and the easiest and most economical investment to enhance any décor.

# DON'T BE FUELED BY IMITATIONS

Circa 1976

Dine-Aglow, a division of Le-Jo Enterprises, Inc., introduced the first disposable lamp fuel cartridge system to the food service and hospitality industry in 1976. The introduction of Dine-Aglow revolutionized the table lighting industry by providing a form of portion control, yield, and cost per burn hour. As plastics improved, in 1980 Dine-Aglow introduced the first decorative fuel cartridge made from innovative plastics of the time, nowadays known as PVC.

Circa 1980

Since inventing Dine-Aglow, Le-Jo Enterprises maintains stringent quality control procedures in every step of the manufacturing process to ensure consistently high quality lamp fuel. Made in the USA all Dine-Aglow lamp fuels are designed and engineered for optimum use and efficient table illumination.

Today Dine-Aglow offers the widest selection of quality Liquid Wax Lamp Fuel with over 16 different fuel sizes and all are guaranteed to perform as advertised. Every Le-Jo Brand product carries decades of manufacturing experience and reliability and is guaranteed to perform as advertised. Dine-Aglow is the only manufacturer to offer a True Burn Time Guarantee on all Dine-Aglow Liquid Wax Lamp fuel.

## TRUE BURN TIME GUARANTEE

As the inventors of Dine-Aglow Liquid Wax Lamp Fuel (1976), we continue to demand the highest quality standards and performance for all products we manufacture. We test our products as well as our competitor's regularly and in detail. We conduct these routine burn tests to ensure our product performs to the high quality standards we expect and you deserve.

By testing of our competitor's cartridges we know some competitors fail to meet the same quality standards we expect of ourselves. They know your schedule is most demanding and do not have the time. Some competitor's cartridges burn 20% less than they advertised. If you take the time and make a simple burn test, you could save 20% annually...

## LAMP LEASE APPLICATION INSTRUCTIONS

When applying for the Dine-A-Glow Lamp Lease Program please follow these detailed instructions:

1. Remove pages 15-18 from the middle of the catalog.
2. Select the Dine-A-Glow Lamp(s) and calculate the quantity of lamps needed. Please keep in mind, all lamp provided under the Lamp Lease Agreement must burn a minimum of 25 hours per week. You may select more than one design or color.
3. For more than one location, make copies of this application or call 1-800-Lamp-Ltd and our customer service representative will be glad to email a copy.
4. Complete the application as instructed. For more information see below:
  - Enter Date
  - Enter name of establishment leasing the lamps.
  - #2 – Enter the lamp information as instructed. Refer to the information on the lamp page. If the lamp is a one piece lamp, then ignore the DG (globe) section.
  - #3 – Enter the name of the corresponding distributor.
  - #4 – Enter the fuel type per lamp and sale price per fuel by distributor
  - Buyer to sign and complete all contact information.
  - Return completed Lamp Lease to distributor's buying department.
  - Buyer to send PO to Le-Jo detailing quantity, part number and description on a PO.
  - Send copy of LLA with PO.
  - Lamps will ship FOB Le-Jo to the establishment via UPS. Freight charges will be billed through the listed distributor and charged to the establishment. If lamps are ordered and shipped with stocking fuel order to the distributor, then the freight charges will be waived.

## LAMP LEASE AGREEMENT

On this \_\_\_\_\_ day of \_\_\_\_\_, 2014, Le-Jo Enterprises, Inc., (hereinafter referred to as "Supplier") and \_\_\_\_\_ (hereinafter referred to as "Buyer") agree to enter into this Lamp Lease, subject to the following terms and conditions:

1. In consideration of the purchase of Dine-Aglow Lamp Fuel, Supplier agrees to provide lamps to Buyer as defined below.
2. The Buyer agrees to purchase and use exclusively Dine-Aglow® lamp fuel for all lamps leased by Supplier to Buyer as defined as follows:

### LAMP 1

PART	PART NUMBER	DESCRIPTION	QUANTITY	INSTALLATION PRICE	REPLACEMENT PRICE
BASE / LAMP	DL:				
GLOBE	DG:				

### LAMP 2

PART	PART NUMBER	DESCRIPTION	QUANTITY	INSTALLATION PRICE	REPLACEMENT PRICE
BASE / LAMP	DL:				
GLOBE	DG:				

3. Buyer agrees to exclusively purchase Dine-Aglow Lamp Fuel for all lamps leased by the Supplier from \_\_\_\_\_ (hereinafter referred to as "Distributor")
4. Pricing is guaranteed to the buyer for the first 12 months as follows:

LAMP 1 FUEL	LAMP 2 FUEL	LAMP 3 FUEL
DF	DF	DF
\$	\$	\$

- i. Pricing is further guaranteed for the 2<sup>nd</sup> year not to exceed by 5%;
- ii. Buyer agrees to pay shipping and handling charges for lamps from Phoenixville, PA 19460;
  1. Charges will be billed through Distributor;

5. In consideration of this Lease and the guaranteed purchase price for Dine-Aglow® Lamp Fuel, Buyer agrees to burn a minimum of 25 hours per lamp, per week, for at least 24 months. This period shall commence from the date the lamps are delivered to the Buyer.
6. Buyer will indemnify Supplier against any breakage or loss which may occur. Buyer will replace lost, stolen or damaged lamps and globes to maintain the original number of lamps supplied.
7. At any time either party has the right to cancel this Lamp Lease upon written notice (email) to the other party.
8. Upon Cancellation Buyer agrees to:
  - a. return all lamps to Supplier or buy all lamps originally supplied at above replacement price;
  - b. Pay replacement price for any missing or damaged lamp(s) originally supplied as outlined above.
  - c. Immediately settle all charges;
  - d. Charges may be billed by distributor;
9. This Lease shall be binding upon parties, their authorized agents, franchises, heirs, executors, assigns, and administrators.
10. This Lease constitutes a full and complete understanding between the parties hereto and cannot be modified without the concurrence of both parties in writing.

## DISPOSABLE LIQUID WAX SYSTEM

### TRUE BURN TIME GUARANTEE

As the inventors of Dine-Aglow Liquid Wax Lamp Fuel (1976), we continue to demand the highest quality standards and performance for all products we manufacture.

We test our products as well as our competitor's regularly and in detail. We conduct these regular burn tests to ensure our product performs to the high quality standards we expect and you deserve. Burn times and variances we quote are calculated on an average of any 12 cartridges.

### TRUE BURN TIME GUARANTEE

Testing of our competitor's cartridges we know some competitors fail to meet the same quality standards we expect of ourselves. They know your schedule is most demanding and do not have the time to manage your lamp fuel. Some competitor's cartridges burn 20% less than they advertised. If you take the time and make a simple burn test, you could save 20%.

You can save up to 20% of your lamp fuel costs by just getting what you are paying for. Call us toll free at 800-LAMP-LTD. We will be glad to review your usage and account. We will be glad to provide complimentary samples to compare to our competition.

HEATING AND WARMING SOLUTIONS

# Dine-A-Heat® Chafing Fuel

HEATING AND WARMING SOLUTIONS

## Diablo MAX

Hot as Hell. Diablo Max is specifically engineered to produce the highest heat in the global foodservice industry. Diablo MAX will heat faster, hotter and more consistently than ANY fuel in the world. Diablo MAX Chafing Fuel consistently maintains temperatures in excess of 220°F. Tests prove Diablo Max outperforms the industry leading gel fuel and all other "Super Wicks" in heat output, safety, economics and overall performance and functionality. Odorless by design, 100% combustion, safe to use and store, Diablo Max is the most economical solution for high heat applications.

## Diablo Chafing Fuel

Diablo Chafing Fuel consistently maintains temperatures in excess of 210°F. Versatile in function and performance, Diablo Chafing Fuel provides the heat output and features not found in other leading brand chafing fuels. Available in 2-4-6 hour sizes, Diablo Chafing Fuel is non-hazardous, non-toxic, safe to use, and store, NO DOT restrictions, re-sealable and re-useable. Excellent solution for any application.

## Dine-A-Heat Wick

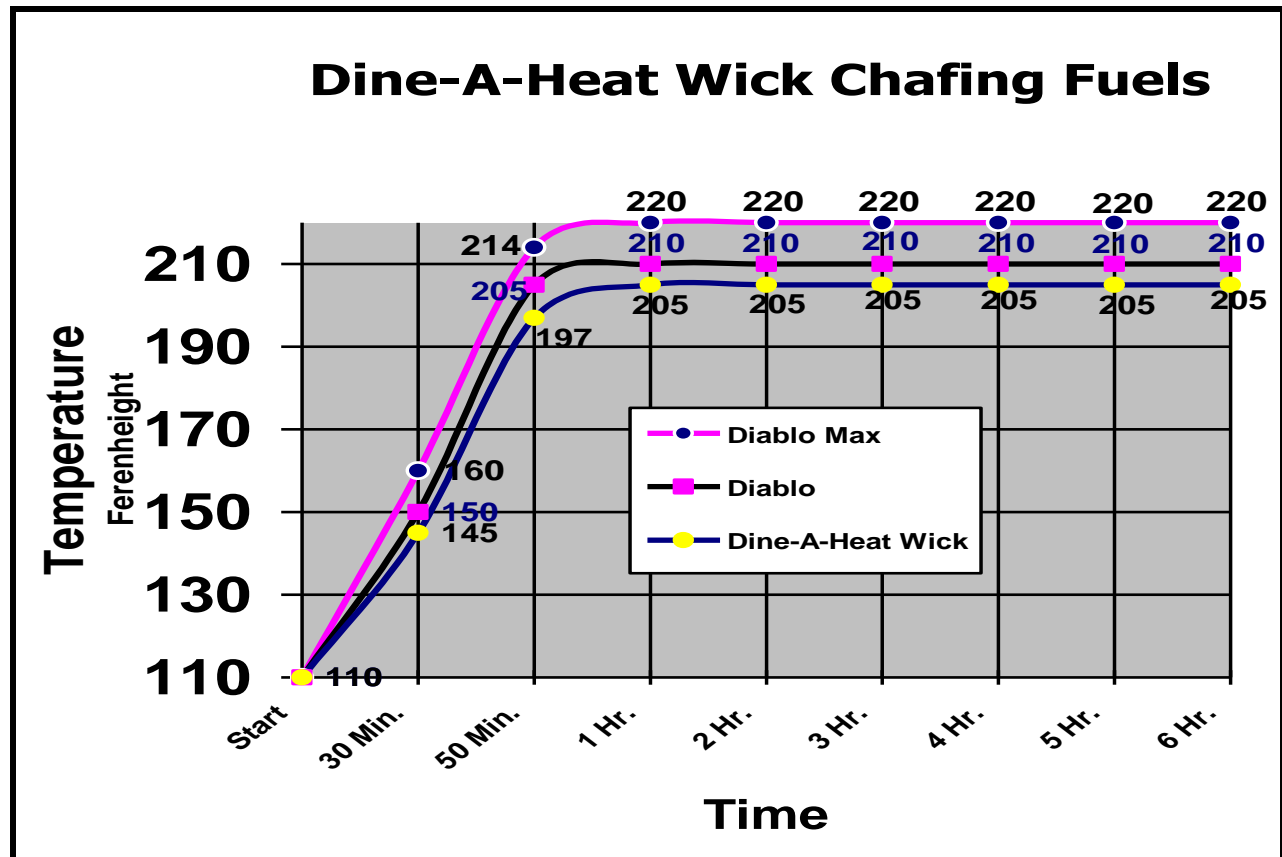

Dine-A-Heat Wick chafing fuel consistently maintains temperatures in excess of 205°F. Dine-A-Heat Wick is a versatile and economical solution for any application. Non-Hazardous, Non-Toxic, Safe to store and transport. Re-sealable cap increases lowers waste and extends burn time. Available in 4 and 6 hour.
