Fresh 'n Clear™

TRAYS AND LIDS

PT 125

PT 175

PT 225

PT 300

The versatility of Fresh 'n Clear™ Trays lets you create grab-and-go kits of edible delights. For you, they're easy to assemble. For your customer, they're easy to carry and easy to buy!

Versatility Meets Convenience

While you can use Fresh 'n Clear containers to attractively display and protect delicate items like pastas or fruits, they're equally suited to bakery items, nuts, candies and more. A two-piece clear recycled PETE tray and lid show off the contents, and they're easy to assemble and seal.

Fresh 'n Clear™ is available in four base containers with two different lids, giving you versatility without taking up valuable storage space. Need to seal in freshness with a film seal? Choose an over-cap lid so delicate, time-sensitive food items stay fresh and protected. Need to find a solution for foods that don't require a film seal, making your own kits, or holding multiple items? The inside-fit, flat lid (used with a plastic band for tamper resistance) does it with ease. As you'd expect, the smooth surfaces make labeling easy.

In all, you'll find our Fresh 'n Clear™ Trays to be a solid, versatile performer, ready for tough daily duty in your retail food operation.

Features of Fresh 'n Clear™

- Crystal-clear recycled PETE construction with multiple size containers.
- Smooth lid and base for easy labeling.
- Two lid options.

Benefits of Fresh 'n Clear™

- Food stays fresher longer, giving you more satisfied customers and repeat sales.
- The contents are beautifully displayed and attract more attention on the shelf.
- One container can hold almost anything, from fragile produce to hearty non-perishables.

Fresh 'n Clear™ Trays are just one product in Placon's food packaging line containing EcoStar® food-grade recycled PETE with up to 100% post-consumer recycled content.

*Fits all four base containers.

Fresh 'n Clear Trays & Lids are only offered in half pallets.

INSIDE-FIT FLAT LID

The inside-fit, flat lid snaps right into place, ready for a plastic band to secure the package. It's a perfect option for preassembled kits or for foods that don't spoil easily.

OVER-CAP LID

For applications that require film sealing, the over-cap lid works beautifully—the film locks in freshness, while the lid fits securely over all four corners.

For virtually any retail food environment—grocery stores, delis, quick marts, restaurants, cafeterias, food carts and beyond—Placon provides thermoformed packaging products for superior performance. Efficient storage, secure sealing and exceptional functionality all play a role in our industry-leading designs. Polypropylene and PETE options mean our packaging can accommodate virtually any food product, any use, any environment. And from environmental perspectives, our EcoStar® food-grade recycled PETE (with up to 100% post-consumer recycled content) is just a taste of things to come.

Ultimately, from stock designs to highly custom creations, the underlying goal is clear: Our products work hard to sell yours.

Whether you need packaging for food, medical, or retail environments, visit www.placon.com or call 800-541-1535 to request additional information about any of our product lines.
